HEXORA
FASTENERS

STRENGTH WITHOUT LIMITS

hexorafasteners.in

ABOUT COMPANY

Established in 2023, we manufacture high-quality screws and customised fastening solutions in Brass, Mild Steel and Stainless Steel, with in-house capability for the operations that matter

Hexora Fasteners is a manufacturing-focused partnership firm specialising in the production of high-quality screws and customised fastening solutions.

We manufacture screws in Brass, Mild Steel and Stainless Steel, serving a wide range of industrial and commercial applications. With in-house capabilities for critical operations such as heading, threading, chamfering and slotting, we focus on delivering consistent quality and customised solutions according to customer requirements.

STRENGTH WITHOUT LIMITS

MISSION & VISION

OUR MISSION

To make the right fastener for every requirement.

We deliver precision-engineered fastening solutions tailored to every application.
From material to finish, every detail is manufactured with accuracy and consistency.
Our focus is reliable quality, timely delivery, and customer satisfaction.

OUR COMMITMENT

We believe in doing what we promise.

Every order is handled with precision, transparency, and attention to detail. We maintain consistent quality from requirement understanding to final dispatch. Our commitment is to deliver products our customers can confidently rely on.

OUR VISION

To grow with the customers we serve.

Building lasting partnerships through consistent quality and dependable manufacturing support. We strive to grow alongside our customers by understanding their evolving requirements. Together, we create reliable solutions built for long-term success.

OUR CAPABILITIES

From wire to finished component, Hexora brings key screw-production operations together within its own manufacturing setup.

HEADING

Cold-forming the screw head and shank to establish the required component geometry.

THREADING

Precision thread rolling for Metric, UNC, UNF, BSW, BSF and machine-thread requirements.

CHAMFERING

Profiling and cleaning the shank end for smooth starting and accurate assembly.

SLOTTING

Creating slotted and driver recesses with controlled depth and alignment.

ONE MANUFACTURING SETUP. MULTIPLE CRITICAL OPERATIONS. TIGHTER PROCESS CONTROL.

OUR PRODUCTS

Hexora manufactures standard and customised screw solutions across materials, applications, head designs and drive types.

MATERIAL-BASED

- Brass Screws
- Mild Steel Screws
- Stainless Steel Screws
- Copper Components

CUSTOM PARTS

Have a drawing, sample or specification?

We manufacture to it.

HEAD & DRIVE-BASED

- Round Head Screws
- Cheese Head Screws
- Pozi Combi Screws
- Hex Bolt Screws
- Slotted Screws
- Phillips / Driver-based configurations

PRODUCTS RANGE

Twelve standard families, each manufactured to your dimensions, thread type and finish. Filter by type and material, or send us a drawing for a fully custom part.

MATERIAL - BASED SCREWS

Brass Screws

HF-BS

Manufactured from quality brass wire, these screws suit electrical, electronics and hardware assemblies where conductivity and appearance matter as much as fastening performance. Head, thread, drive and finish are all made to requirement.

Brass

MATERIAL - BASED SCREWS

MS Screws

HF-MS

A cost-effective, general-purpose screw manufactured in Mild Steel and available across a wide range of head types, threads and protective finishes for industrial and construction use.

Mild Steel

Carbon Steel (C-18)

MATERIAL - BASED SCREWS

Stainless Steel Screws

HF-SS

Manufactured in Stainless Steel for demanding indoor and outdoor environments: industrial equipment, automotive and electrical applications where long service life and corrosion resistance are essential.

Stainless Steel

APPLICATION - BASED SCREWS

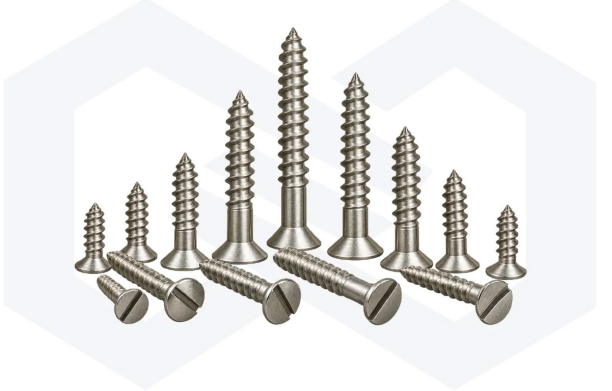

Machine Screws

HF-MSC

Uniform-diameter screws with machine threads for use in tapped holes or with nuts. Pan, round and countersunk heads available, in Brass, MS or Stainless Steel to suit the assembly.

Brass | Mild Steel | Stainless Steel

APPLICATION - BASED SCREWS

Wood Screws

HF-WS

Coarse-thread screws for furniture, wooden assemblies and hardware. Countersunk, round and pan heads available in MS, Stainless Steel or Brass with the finish of your choice.

Brass | Mild Steel | Stainless Steel

APPLICATION - BASED SCREWS

Electrical Panel Screws

HF-EPS

Electrical panel and panel-fastening screws built to UNC/UNF thread specification, with full or partial (dog point) thread configuration. Every batch is checked on thread, dog point diameter and length, head, slot, overall length and dimensional inspection.

Brass | Mild Steel

HEAD & DRIVE - BASED SCREWS

Slotted Screws

HF-SL

A single straight slot for driver access, the classic drive for electrical, hardware and general industrial work. Manufactured in Brass, MS or Stainless Steel.

Brass | Mild Steel | Stainless Steel

HEAD & DRIVE - BASED SCREWS

Phillips Head Screws

HF-PH

Cruciform Phillips recess for fast, self-centring driving on production lines. Suited to machinery, electrical equipment and appliances in Brass, MS or Stainless Steel.

Brass | Mild Steel | Stainless Steel

HEAD & DRIVE - BASED SCREWS

Pan Head Screws

HF-PAN

A low-profile rounded head with a wide bearing surface, a versatile default for electrical, electronics, appliance and general industrial assemblies.

Brass | Mild Steel | Stainless Steel

HEAD & DRIVE - BASED SCREWS

Round Head Screws

HF-RH

A domed head that stands proud of the mounting surface, used in hardware, electrical products and furniture where the head is part of the look.

Brass | Mild Steel | Stainless Steel

HEAD & DRIVE - BASED SCREWS

Cheese Head Screws

HF-CH

Tall cylindrical head with a flat bearing surface for electrical and industrial applications.
Available in Slotted, Phillips and Pozi drives with full- or half-thread options.

Brass (CuZn37) | Carbon Steel (C-18) | Stainless Steel | Mild Steel

HEAD & DRIVE - BASED SCREWS

Pozi Combi Screws

HF-PC

Combined Pozi and slotted drive for flexible assembly and easy installation. Available in Mild Steel and Stainless Steel with zinc-passivation finishes.

Brass | Mild Steel | Stainless Steel

HEAD & DRIVE - BASED SCREWS

Hex Bolt Screws

HF-HEX

A hexagonal head driven externally, for high-torque tightening in structural and mechanical assemblies. Available fully or partially threaded, to Metric, UNC, UNF, BSW, BS or customized thread standards, with head dimensions, length and finish made to your drawing, dimensions or sample.

Brass | Mild Steel

APPLICATION - BASED SCREWS

Custom / Special Screws

HF-CSC

Custom fasteners manufactured to your drawing, sample or application requirements. Tailored across head, thread, dimensions, drive, profile, material and surface finish.

Brass | Mild Steel | Copper | Stainless Steel | Custom material on request

HEAD & DRIVE - BASED SCREWS

Hexora Specialised, high volume manufacturing

HF-HSB

Precision screws from M2 to M8 with in-house forming, threading, chamfering and slotting. Built for consistent dimensions, thread accuracy and reliable repeat production.

Brass | Mild Steel

TYPE OF MATERIALS

We manufacture across a range of materials selected according to performance, environment and application requirements.

01 BRASS

Corrosion resistance, electrical conductivity and an attractive natural finish.

Applications:
Electrical & Electronics • Panels & Switchgear • Hardware

02 MILD STEEL

A practical material choice for general engineering and industrial fastening applications.

Applications:
General Engineering • Construction • Panels

03 STAINLESS STEEL

Selected where durability and corrosion resistance are critical.

Applications:
Industrial Equipment • Automotive • Electrical Applications

04 COPPER

Used where high electrical and thermal conductivity is required.

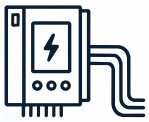

Applications:
Electrical Contacts • Earthing & Bonding • Custom Components

INDUSTRIES WE SERVE

Different industries demand different materials, finishes, dimensions, drives and documentation. Hexora manufactures accordingly.

Automotive & EV

Electrical & Electronics

Industrial Machinery

Renewable Energy

Telecommunications

Medical

Aerospace & Transportations

OEM Manufacturing

Also serving :

Construction & Infrastructure • Hardware & Furniture • Plastic Moulding
Electrical Panels & Switchgear

WHY HEXORA?

BUILT AROUND YOUR REQUIREMENTS

- IN-HOUSE MANUFACTURING
- CUSTOMISED SOLUTIONS
- MULTIPLE OPERATIONS. ONE SETUP.
- MATERIAL FLEXIBILITY
- DEPENDABLE DELIVERY

Supported by the wider experience of PrimeTurn Components, Vrundavan Brass Corporation and Aashvi International.

" Precision in every detail.
Consistency in every batch.
Responsibility in every delivery. "
